Dear Friend,

Can you assist me - I seek pen friends in your country and the areas to the south of U.S.A. I will exchange almost "anything - laws permitting" - I am a new shell collector. I seek shells & coral & will endeavour to send Australian & New Zealand shells if requested in return. My husband & son (19) are keen "rock hounds" - will swap. We are keen on fishing, camping, touring, nature study, bushwalking & shooting (for food). We have a wonderful climate here in W. A. most suited to the way we like to live.

My husband, George, is 44 - carpenter & joiner by trade - has worked for past 9 years in Pest Control Company. Our son, Richard, is a welder & has built his own beach buggy from (Austin A40) unlicensed, so he built trailer to tow buggy to beaches.

I belong to 2 clubs, enjoy reading, knitting, sewing, am learning pottery & glazing & floral art. I have a good collection of pot plants - mainly geranium, spices, cacti, and succulent, begonias and bromeliads. I volunteer time to the Red Cross and sorting used clothing for charitable organizations.

Richard is keen on photography - color slides - he has own screen & projector - will swap.

Please help me find my "friends".

Yours sincerely,
Mrs. Rhonda White
